

FIRE, EMERGENCY & SECURITY SYSTEMS TECHNICIAN APPRENTICESHIP

**Level:**

3

Duration:

3 years - x16 one week blocks

Entry requirements:

A minimum of four GCSEs at grade C (4) or above including English, Maths, Science and Technology is desirable.

Overview:

The Electronic Security and Emergency Systems qualification is ideal for engineers and others looking to work within the electronic security and emergency systems industry. They have been designed to meet the needs of engineers involved with security, fire alarm and emergency lighting system; installation, commissioning, maintenance, auditing, surveying and design.

Aim:

These qualifications allow you to develop and demonstrate your knowledge and skills in areas such as:

- Reducing the risks to health and safety at work
- Installing electronic security and emergency systems
- Diagnosing and rectifying faults on electronic security and emergency systems
- Making sales presentations.
- Assessment is typically through assessor observations, witness testimony, products of work, projects assignments and questioning. You will also complete a portfolio of evidence for each unit.
