

ASBESTOS AWARENESS

**Cost:**

Pricing available on request

Duration:

½ day

Entry requirements:

None required

Overview:

This Asbestos Awareness training covers the following topics:

- The properties of asbestos and its effects on health, including the increased risk of developing lung cancer for asbestos workers who smoke
- The types, uses and likely occurrence of asbestos and asbestos materials in buildings and plant
- The general procedures to deal with an emergency, e.g. an uncontrolled release of asbestos dust into the workplace
- How to avoid the risk of exposure to asbestos

Important – Awareness training is not enough if you plan to carry out any work with asbestos containing materials.

**Assessments:**

Short question paper. Certificate of attendance from Training 2000.

Who is it for?

This training is for those persons who are liable to disturb asbestos while carrying out their normal everyday work, or who may influence how work is carried out.

Aim:

Asbestos awareness provides delegates information on how to avoid/recognise asbestos risk and how to protect themselves accordingly.

Method of delivery?

Classroom presentation and discussion

Objectives

The course content satisfies the objectives as stipulated in Regulation 10 of the Control of Asbestos Regulations 2012.
