

INTRODUCTION TO CNC TURNING

Cost:

£750 plus VAT

Level:

Level 3/upskilling

Duration:

5 days

Overview:

Basic CNC turning with an introduction to live tooling

Course objective: Safely operate a multi-axis CNC lathe, select and run a multi-axis CNC turning program, understand movements of a multi-axis CNC lathe and first principles in CNC turning alongside the machine console, human/machine interface and functions. Delegates will also be able to carry out the simulation of a machine program.

Who is it for?

Target group: Apprentices, operators, team leaders and CNC machining engineers aiming to upskill and expand their capability to include multi-axis machining.

Method of delivery?

Delivered in centre at the AMAC Blackburn
