½ day

Overview:

This Defra-approved qualification offers a single unit solution that provides experienced automotive Mobile Air Conditioning (MAC) technicians with evidence that they meet the minimum F-gas requirement (EC842/2006 AND ANNEX EC307/2008)

This training can be delivered at Training 2000's Automotive Centre or in-house. Please contact us for availability and costs.

Where Can I Study?

Training 2000's Automotive Centre, Blackburn, Lancashire.

Can be delivered in-house, please contact us for availability and costs

Any other useful Information:

- All Mobile Air Conditioning (MAC) technicians working with cars and car derived vans, must have achieved as a minimum requirement, a refrigerant handling qualification which fulfils the European Union F-gas Regulation (EC842/2006 and Annex to Regulation EC307/2008).
- Successful candidates will be issued with a certificate which shows they are compliant.
- The assessment ensures rigour and quality of assessment by measuring the candidate's underpinning knowledge, including F Gas regulations. Learners must demonstrate the learning outcomes by following and achieving two assessment components which are set by IMI
- practical assessment
- external test (online or paper- based)
