

## IMI LEVEL 3 AWARD IN HYBRID / ELECTRIC VEHICLE SYSTEM REPAIR AND REPLACEMENT

**Cost:**

£510 + VAT – this includes registration and certification with the IMI

**Level:**

3

**Duration:**

2 days

**Overview:**

The content of this qualification has been designed to give the candidate the knowledge and skills required to work safely on Electric/Hybrid vehicles whilst carrying out diagnostic, testing and repair activities. This may include vehicles that may have or had damage to their high energy/electrical system.

It contains two mandatory units EV2.2 and EV3.

EV2.2 covering all of the skills and knowledge from IMI Level 2 Award in Electric/Hybrid Vehicles Routine Maintenance Activities and EV3 covering skills in:

- working safely on an electric/hybrid vehicle
- using information to carry out the task
- carrying out repairs on high energy electrical systems
- Gathering information and making suitable recommendations

As a result, learners successfully completing this qualification will acquire significant core knowledge and skills and the ability remove and replace Electric/Hybrid vehicle high voltage components.

**Assessments:**

This knowledge qualification is tested via a multiple-choice test and practical assessment

**Who is it for?**

This Award sized qualification offers an introduction to this specialised industry sector which in addition to complimenting their current industry qualifications and experience, will enable them to continue to work safely within their job role. These roles can include but are not exclusive to:

- Maintenance and Repair Technicians
- M.E.T Technicians

**Aim:**

Candidates will have an interest in gaining the knowledge to work safely when carrying out repair activities on Electric/Hybrid vehicle high voltage systems.

It is therefore designed for those people who may encounter electric/hybrid vehicles within a routine maintenance situation. It also contains the knowledge and skills required to work safely around a vehicle that may have had damage to its high energy/electrical system.

**Where Can I Study?**

Training 2000's Automotive Training Centre, Blackburn, Lancashire
