

ADVANCED POSITIONAL MULTI-AXIS MACHINING

Cost:

£750 plus VAT

Level:

Level 4/upskilling

Duration:

5 days

Overview:

5 axis programming with multi-axis setting and operating

Course objective: Delegates will safely operate a multi-axis machining centre, program and run a 5 axis CNC program using Siemens Shop-Mill, set work piece and tool offsets, understand the machine console, human/machine interface and functions alongside probing and tool measurement capabilities.

Who is it for?

Target group: Apprentices, manufacturing engineers and CNC machinists who have good experience and are aiming to upskill and expand their capability to include operating and programming multi-axis machine tools.

Method of delivery?

Delivered in centre at the AMAC Blackburn
