

INTRODUCTION TO COMPUTER AIDED DESIGN

Cost:

£150

Level:

Beginner

Duration:

6:00pm - 8:30pm (Over five 2.5 hour sessions)

Entry requirements:

None required.

Overview:

CAD is the use of computer systems to aid in the creation, modification a design. CAD software is used to increase the productivity of the designer, improve the quality of design, improve communications through documentation.

Navigate the User Interface and learn how to control and use precision drafting tools to create a dimensioned Engineering drawing using AutoCAD.

Drawing Principles, Introduction to 2D CAD, Inputting methods, Layers & Printing, 1st & 3rd Angle Projections

Who is it for?

Any one interested in understanding basic manufacturing principles

Where Can I Study?

AMAC Centre, Training 2000, Blackburn.

Date last updated: 06/04/2017
