Apprenticeships

Training 2000's AAT Accountancy Apprenticeships are designed to support both the upskilling of existing employees and the recruitment of new talent into your business.

Our apprenticeships provide learners with the knowledge and practical skills required to carry out a wide range of accounting duties, including bookkeeping, purchase and sales ledger management, balancing accounts, banking, and auditing. As apprentices progress, they will also develop the ability to draft financial statements and maintain accurate financial records.

To ensure suitability for the programme and the accountancy profession, all prospective apprentices are required to attend an Accounting Assessment Day led by our experienced accountancy team.

Financial support for hiring a young person

Hiring young talent brings fresh ideas and strengthens an employer's workforce, enabling them to develop the skills needed to meet the demands of the future.
